

For Spektrum SMART Charger:

Voltage of individual cells for No.1~8

Input Voltage

Output Voltage

Temperature of SMART Charger

Charging/Discharging Current (mAh)

Number of Charges during Present Power Cycle

Number of Total Charges on Charger (Lifetime)

For Spektrum SMART battery:

Brand of SMART Battery

Battery Chemistry and Cell Count

Battery Capacity

Number of Charges on the SMART Battery

Battery Temperature

Number of Overcharges on the SMART Battery

Charging Current (C Rate)

Number of Discharges on the SMART Battery

Discharging Current (C Rate)

Over Temperature Warnings
