

Product Bulletin

July 25, 2018

Products: Spektrum™ SPMAR7350 and SPMAR9350 receivers with PID numbers beginning with TRA.
This bulletin only applies to receivers with PID number starting with TRA.
Receivers with a different PID number are not affected.

Issue: If you connect a temperature sensor to the receiver and the temperature sensor reaches 110°F, the receiver will shut down.

What to Do: Please visit http://spektrumrc.cachefly.net/apps/updater_instructions.html to update your receiver firmware. You will need a USB Transmitter/Receiver Programming Cable (SPMA3065) to complete the update.

Finding the PID Number

The PID number is a manufactured identification number located on the product box as well as on the bottom of the receiver.

Corrective Action

1. If you have not already, register your Spektrum receiver at www.spektrumrc.com.
2. Connect your receiver to your computer using the USB Transmitter/Receiver Programming Cable (SPMA3065):
3. Visit http://spektrumrc.cachefly.net/apps/updater_instructions.html to update your receiver firmware.
4. Follow the instructions listed under Spektrum Updater.

Once you complete the Firmware update, the issue will resolve.
